Freelance WordPress Developer

September 2022 – Present

- **E-commerce Development:** Designed and developed e-commerce websites such as **Mughal Hunting Store** and **Camoflame.pk** using WordPress, focusing on user experience, security, and responsive design.
- **Custom Website Design:** Created custom websites tailored to client needs, implementing advanced WordPress themes and plugins to enhance functionality and aesthetics.
- **Plugin Development:** Developed custom plugins, including the **Elementor TTS plugin**, and contributed to open-source projects on GitHub, showcasing proficiency in extending WordPress capabilities.

PROJECTS

[Elementor TTS Plugin](#)

Apr 2023

- **Overview:** Developed a custom WordPress plugin designed to enhance the **Elementor page builder** with **text-to-speech (TTS)** functionality.
- **Objectives:**
 - **Accessibility:** Improve website accessibility by allowing users to listen to text content on the site.
 - **User Experience:** Provide a seamless integration with Elementor, making it easy for website creators to add TTS features.
- **Key Features:**
 - **Customizable Settings:** Options for adjusting voice, speed, and pitch to cater to different user preferences.
 - **Compatibility:** Ensures smooth operation with various Elementor widgets and themes.
 - **Easy Integration:** Simple setup and configuration process for end-users.

Core WordPress Skills

Page Builders: Expertise in designing and customizing websites using **Elementor**, **WPBakery**, **Brizy**, and **Divi**, providing flexible and visually appealing layouts.

E-Commerce: Proficient in setting up and managing online stores with **WooCommerce**, including product management, **payment gateway** integration, and customization.

Forms: Skilled in creating and managing forms using **WPForms** and **Contact Form 7**, ensuring effective user interaction and data collection.

Themes: Experienced with a wide range of WordPress themes, including **OceanWP**, **Astra**, **Divi**, **GeneratePress**, and various **ThemeForest paid themes**, allowing for versatile and professional website designs.
